### INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.	
PCT/US03/36754	

I. Basis of the report	
1. With regard to the elements of the international application:*	ĺ
the international application as originally filed.	
the description:	İ
pages 1-6 as originally filed	-
magas NONE filed with the demand	1
pages NONE , filed with the letter of	
the claims:	
nages 7.10 as originally filed	
pages NONE, as amended (together with any statement) under Article 19	
mages NONE filed with the demand	
pages NONE , filed with the letter of	
the drawings:	
pages 1-2, as originally filed	
pages NONE, filed with the demand pages NONE, filed with the letter of	
the sequence listing part of the description:	ļ
pages NONE, as originally filed	
pages NONE , filed with the demand pages NONE , filed with the letter of	
2. With regard to the language, all the elements marked above were available or furnished to this Authority I language in which the international application was filed, unless otherwise indicated under this item.  These elements were available or furnished to this Authority in the following language which is:	n the
the language of a translation furnished for the purposes of international search (under Rule23.1(b)).	
the language of publication of the international application (under Rule 48.3(b)).	
the language of the translation furnished for the purposes of international preliminary examination (und	ier Rules
3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:	
contained in the international application in printed form.	
filed together with the international application in computer readable form.	
furnished subsequently to this Authority in written form.	
furnished subsequently to this Authority in computer readable form.	
The statement that the subsequently furnished written sequence listing does not go beyond the discloss international application as filed has been furnished.	ure in the
The statement that the information recorded in computer readable form is identical to the written sequence has been furnished.	ience listing
4. The amendments have resulted in the cancellation of:	
the description, pages NONE	
the claims, Nos. NONE	
the drawings, sheets/fig NONE	
This report has been established as if (some of) the amendments had not been made, since they have been considered.	lered to go
beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**  * Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 are the Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.	referred to in ad 70.17).

#### INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/US03/36754

V.	V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement					
	CHAHORS and Explanations supporting 5					
1.	STATEMENT					
Novelty (N)	Claims 1-20 YES					
	Hovely (14)	Claims NONE NO				
Inventive Step (IS)		Claims 1-20 YES	ì			
	Inventive Step (IS)	Claims NONE NO				
		YES				
Industrial Applicability (IA)	Claims 1-20 NO	,				
	Claims NONE NO					

#### 2. CITATIONS AND EXPLANATIONS

Claims 1-20 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest device for moving elevator doors, comprising a threaded ferromagnetic shaft, at least one magnetic mover supported for movement with the door, the magnetic mover generating a magnetic field the causes the mover to move responsive to rotation of the shaft.

Claims 1-20 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
